

SP 49.2 Termination for Default

Substantive changes made for the 3-30-06 revision:

1. Uses the phrase “scheduled delivery date of a good or service” in lieu of “subcontract due date” in the “Forebearance/Failure to Perform” section. This is to cover a situation in which a subcontractor misses a very important delivery date scheduled *before* the “subcontract due date” that severely impacts the Laboratory. In a situation like this, we need the flexibility to assess the option of terminating for default.
2. Deletes reference to FOCI which no longer applies at LBNL.
3. Updated some terminology to be consistent with SP 1.2, *Definitions*.
